

LEARNING PROGRAM

# BACTERIAL WHOLE GENOME SEQUENCING

**Bacterial Whole Genome Sequencing (WGS) learning program** is designed to equip learners with the theoretical knowledge required to perform and analyze bacterial genome sequencing. The program covers a comprehensive range of topics, from the basics of bacterial genomes to the bioinformatics analysis involved in WGS, quality control measures, and the challenges faced during sequencing and assembly.

## TOPICS COVERED

**Introduction to Bacterial Whole Genome Sequencing (WGS)**

**Bioinformatics in Whole Genome Sequencing (WGS)**

**Quality Control in (QC) Whole Genome Sequencing (WGS)**

## WHAT WILL YOU GET:

Snacks, certificate, module, software & study case data will be provided.

## SCAN FOR REGISTER

**Rp. 1.500.000**
