

# MASTERING REAL-TIME PCR FOR PORCINE DETECTION

## COURSE OVERVIEW

Genetika Science Academy is offering **Porcine Detection Learning Program** focuses on mastering real-time PCR (qPCR) for the detection of porcine DNA, ensuring compliance with halal dietary laws. The program includes both theoretical concepts and practical applications of qPCR techniques to detect porcine contamination in food products. It adheres to the **SNI ISO/TS 20224-3:2020** standard for porcine DNA detection.

## TOPICS COVERED

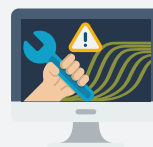

**Fundamentals of qPCR:**  
Definition and principles of quantitative PCR

**qPCR Workflow:**  
Sample preparation and DNA extraction

**Hands-on:**  
Porcine Detection using quantitative PCR

**Troubleshooting Common qPCR Issues**

## WHAT WILL YOU GET

2 Day of hands-on learning program, lunch break, module and certificate.
